October 30, 1988

Dear Josh,

Thanks for your recent note and the guide to the laboratories at Rockefeller University. You must be very proud of the accomplishments of the University under your leadership.

It has been a pleasure to get to know you during my tenure at the Trusts and we are all in your debt for the leadership you have provided for the Pew Scholars Program.

I agree that it will be a special pleasure to watch these young scientists excel in their research careers and hopefully as leaders in the larger community.

Thanks again for your note and I will look forward to talking with you soon.  
Rebecca
